

1. ADF WINTER SCHOOL

26. - 28. 1. 2012

Thema: Adaptive Immunität

Tagungsort: Umweltforschungsstation,
Schneefernerhaus, Zugspitze

www.schneefernerhaus.de

Wissenschaftliche Leitung:
Claudia Traidl-Hoffmann
Esther von Stebut-Borschitz

Referenten:
Kerstin Steinbrink, Mainz
Knut Schäkel, Heidelberg
Stefan Martin, Freiburg
Martin Schaller, Tübingen

Special Guests:
Ari Waisman, Mainz
Nikolaus Romani, Innsbruck
Steffen Massberg, München

Teilnehmer: naturwissenschaftliche oder medizinische
Doktoranden. Bitte bewerben Sie sich bis zum
30. September 2010
über die ADF-Vertrauensdozenten Ihrer Klinik
(siehe ADF-Homepage)!

Wir danken unserem Hauptsponsor

und unserem Sponsor

L'ORÉAL

Research & Innovation

Weiterhin danken wir der
Miltenyi Biotec GmbH

für die freundliche Unterstützung.

Organisation:

Elke Schmeckenbecher
Arbeitsgemeinschaft

Dermatologische Forschung e.V.

1. ADF WINTER SCHOOL

PROGRAM

Thursday 01-26-2012

14:00-14:30	Welcome and organization of accommodation
14:30-15:00	Welcome Reception
15:00-15:45	Get-to-know each other....
16:00-18:30	Technologies in Immunology I
16:00-16:30	Nikolaus Romani <i>Novel and well-proven methods and models in Langerhans cell research</i>
16:30-17:00	Claudia Traidl-Hoffman <i>In vitro co-culture experiments with human cells</i>
17:00-17:30	Kerstin Steinbrink <i>Mouse models for allergic and autoimmune diseases</i>
17:30-18:00	Knut Schäkel <i>Methods and strategies for research with dendritic cells</i>
18:30-20:00	Dinner
20:00-20:30	Keynote Lecture Nikolaus Romani <i>Langerhans cells & more: Regulation of immunogenicity and tolerance by targeting skin dendritic cells</i>

Friday 01-27-2012

09:00 11:30	Technologies in Immunology II (Talks faculty)
09:00-09:30	Stefan Martin <i>Studying inflammatory skin diseases in mouse models</i>
09:30-10:00	Esther von Stebut-Borschitz <i>Skin granuloma formation models</i>
10:00-10:30	Martin Schaller <i>In vitro epithelial cultures for analysis of pathogen/host interactions & electron microscopy</i>
10:30-11:00	Ari Waisman <i>Conditional gene targeting in mice</i>
11:00-11:30	Steffen Massberg <i>In vivo imaging of cell adhesion and migration</i>

1. ADF WINTER SCHOOL

11:30-15:00	Lunch, winter sports & more....
11:30-13:00	Guided Tour through the UFS (Group 1, please register with the organizer)
13:30-15:00	Guided Tour through the UFS (Group 2, please register with the organizer)
15:00-15:30	Get-warm-again coffee...
15:30-16:30	Poster presentations (groups of 3-4 plus faculty)
16:30-19:00	Scientific Talks Faculty I
16:30-17:00	Kerstin Steinbrink <i>How to prevent allergies: immune tolerance to contact allergens</i>
17:00-17:30	Knut Schäkel <i>Dendritic cells, Types, function and distribution</i>
17.30-18.00:	Tea and more – Break
18.00-18.30	Stefan Martin <i>Immunopathogenesis of allergic contact dermatitis</i>
18.30-19.00	Esther von Stebut-Borschitz <i>Th subsets in cutaneous leishmaniasis</i>
19.00-20.00	Dinner
20.00-21.00	Keynote Lectures
20:00-20:30	Steffen Massberg <i>Platelets - Role in vascular biology</i>
20:30-21:00	Ari Waisman <i>IL-17: connecting skin to cardiovascular disease</i>

Saturday 01-28-2012

09:00 10:00	Scientific Talks Faculty II
09:00-09:00	Martin Schaller <i>Fungi, neutrophils and protection</i>
09:30-10:00	Claudia Traidl-Hoffmann <i>Adjuvant, non-allergenic mediators in allergic diseases</i>
10.00-10.30	Coffee and more – Break
10.30-12.00	Poster Presentation of selected Abstracts Discussion with Faculty about improvements etc. Discussion about scientific careers etc.
12.00-13.00	End Discussion

Wir danken,
